

Correspondence with Private Investigator Kenneth Mains:

Kenneth Mains <kenneth@kennethmains.com>
To dmhennen@comcast.net

Sun 2/10/2019 7:38 AM

This message has been replied to or forwarded.

Dan -

Thanks for the message. I can investigate any case but I cannot do it probono anymore do to the amount of requests that I get.

I charge my clients between \$5,000-\$15,000 depending on the case, availability of any reports and travel.

Respectfully-

Kenneth L. Mains

Dan -

I looked over the case briefly on your YouTube page.

The cost to investigate and render an expert opinion on this case will be \$7,000. This will be done by sifting through all the documentation you have and what I can gather from my office in PA. I will make phone calls, email individuals, etc in order to form an opinion on the deaths.

If you want me to travel to Minnesota to do interviews, meet people, revisit crime scene etc it will be \$12,000.

The choice is up to you. Once you choose you pay the full amount up front either by check or credit card. If you cannot afford this, we can try to work out a payment with a retainer. I do not charge hourly.

Once payment is received I will send you a short contract for both of our signature explaining the terms.

These are flat fees and they are for life...meaning I am always available to you even after I render an opinion. The opinion will be given to you in a report that is thorough and encompassing for you to do what you want with. Most take it to law enforcement or the media...but that's up to you.

Hope to work with ya soon.

Respectfully-

Kenneth L. Mains

I did not play it because the title alone had "staged" in it.... that is a bias.

When I review a case I do not want to look at anything that could be biased on way or the other.

I will look at everything like this after I look at all the police information first.

Respectfully-

I have gone through about 1/2 of the documents you have sent me.

I watched crime scene photos yesterday.

It will probably take me another 4-8 weeks until I am ready to even speak intelligently on the case. Because once I am done with the reports and pictures, I have to go back through it again. Possibly numerous times. That is just the methods I use.

This is going to be a long process. I will provide updates whenever you ask for them.

As you know, there is a lot of info here. Rest assured I will be meticulous and thorough before rendering my opinion.

Respectfully-

Kenneth L. Mains
www.kennethmains.com

On Mar 15, 2019, at 6:42 AM, Dan Hennen <dmhennen@comcast.net> wrote:

Good morning Kenneth,

I would like to provide our group with an update on your work this weekend.

I like to use transparency when I undertake things like this, so I'll get you up to speed on my end.

- *I have announced to the group that a Private Investigator has been hired.
- *I have not disclosed your name to the group (only to the three admins in my group, and they have been told to keep in confidential).
- *I have created a GoFundMe Campaign to help defray the expense and this allows members of the group to donate.
- *I do not have a connection to the Crowley family and didn't know them.
- *I used to live four blocks away (years ago), so I'm familiar with the area, and I have two daughters, so the five-year old being killed grabbed my attention.
- *I want the truth to come out regardless of what that is or how disturbing it is.
- *I have family and friends in law enforcement and although I have been critical of detectives in this particular case, I'm not anti-cop.

I would like this initial phase of research to be done by you with me staying out of your way. I think it is best for you to review the documentation and paperwork and all the records first. I believe this first phase could take 1-3 months just to get caught up with this case.

After that I would like to point you in a couple different directions to research, but I have a feeling you will go down those avenues anyway.

This case is complex and has many "actors" involved in the aftermath.

On May 14, 2019, at 4:38 PM, DAN HENNEN <dmhennen@comcast.net> wrote:

INCONSISTENCIES IN THE DAVID CROWLEY MURDER CASE

- 1) Gun is one foot from David's left hand.
- 2) Blue blanket is over David's legs.
- 3) Blood spatter is medium velocity due to blunt force trauma and flows in at least four directions.
- 4) "Bloody footprints" show cleaned-up blood when sprayed.
- 5) Bullet hole in living room ceiling was not documented or seen until February 18, 2015.
- 6) No bullet, fragment, or cartridge found associated with the gunshot wound to David's head.
- 7) Fruit on the counter is still fresh.
- 8) Back door was ajar.

- 9) Back neighbor noticed back door open during the time frame, but doesn't remember when.
- 10) Knife tested positive for blood of all three, yet it was not visible. Appears to have been washed, and no prints on the knife.
- 11) No apparent blood in area around knife.
- 12) Writing on wall doesn't match David.
- 13) David's fingerprints are not on the gun.
- 14) Magazine from the gun has David's blood, but the visible latent print doesn't match David.
- 15) Knife is on top of stuffing fibers and hair.
- 16) Stuffing is under blanket by David's leg.
- 17) Prints/ridge detail of "bloody footprints" never identified.
- 18) No high velocity blood spatter. Nothing that shows gunshots to heads took place.
- 19) David's leg looks to be lying on top of fiber stuffing. Why, and how?
- 20) Not enough dog feces in the house – roughly 29 separate droppings.
- 21) Medical Examiner did not re-hydrate David's left hand or feet to compare to other evidence in the house.
- 22) David's feet were not tested for blood.

- 23) When police left the scene, they had six casings, one unspent cartridge, and four fragments. Without having knowledge of whose blood/tissue/brain matter was on the evidence, it was determined to be a murder/suicide. Once tested, the evidence retrieved that night showed the blood belonged to Komel. The Police Chief called it murder/suicide WITHOUT the bullet that killed David being found.
- 24) Chris Klein was the one who reported the whole in the ceiling.
- 25) Chris Klein lied to the police about being in the house with Dan Sr., and he lied about having permission to be in the home.
- 26) Chris Klein entered the attic BEFORE the police arrived.
- 27) Item 57 (bullet fragment from attic) was not, or could not, be tied to David's gun.
- 28) Item 57 (bullet fragment from attic) was found one month later – after the scene was released and cleaned by a professional cleaning crew.
- 29) The police officers present that day, the crew from BCA, and the cleaning crew DID NOT see a whole in the ceiling. If it had been there, it would have been noticed since Det. Bone stated when he went in February, when they opened the door, he noticed “an obvious” defect in the ceiling.
- 30) The blue blanket was under Komel, yet over David.
- 31) Knife blade was in the locked and open position.
- 32) The knife blade was pointing toward David's upper body.
- 33) Decomposition does not equate to three weeks. Dr. Lelinski states the decomp as “early to moderate” which puts the bodies being left in the house for about 4-7 days, 10 days at most.
- 34) Paleo was thin and dehydrated. He did not present as an animal that had been feasting on dead human flesh.
- 35) NO pools of blood located anywhere in the house. Where did the blood to write on the wall come from?

- 36) Item 57 (bullet fragment from attic) does not have any blood/tissue/hair in, or on the fragment. Nothing could be detected even after spraying the item, or swabbing the item.
- 37) Dan Jr. stated he dropped the packages off on December 28, 2014, yet, the neighbors do not recall seeing the packages until January 10, 2015.
- 38) Pot on the dresser looks staged. It should not be in the grinder, and there are no smoking papers.
- 39) According to those who use marijuana, the tweezers on the dresser next to the pot are “wrong”.
- 40) Kitchen window was unlocked.
- 41) Snow was “trampled down” around the house and on the back deck prior to police arrival.
- 42) The bodies were moved by the police and then written in the reports as being in the position found.
- 43) David’s left finger position is not in a natural death position.
- 44) The latent prints found – were they matched to the police officers on-scene?
- 45) The police did not look at anyone to be a suspect despite the proof of a large amount of money being at stake, and Sean Wright’s threat to David saying he was upset with David because he felt he would be thrown in prison.
- 46) Komel’s left hand was originally UNDER her body so that means Paleo COULD NOT have eaten her left hand. It was missing prior to her body being placed.
- 47) Police reports state “no ammo in the house”.

To: DAN HENNEN

Tue 5/14/2019 3:59 PM

This message has been replied to or forwarded.

You have provided me more information than I normally get on cold cases so thank you for that.

I have enough documents. If anything at all, I would like to know more about Komel and David’s religious beliefs. I know there is some things mentioned in the police reports but if I was the original investigator, I would do a lot more in this area.

As a consult, I have plenty of info. As a private investigator I would travel to Minnesota...view crime scene and talk to people. However, I am just consulting and providing my opinions to you.

I should have report completed by the first week of June.

Respectfully-

Kenneth L. Mains

Dan –

Everyone sees things differently. That is why two people looking at the same thing in court argue about what they see, even though it is the same thing. People just interpret things differently. I am not one to debate or argue points. I am not a debater. I state my opinions and move on. With that said, I feel strongly about my assessment on this case but it is my opinion. It is obvious others will look at the same set of facts and have a vastly different opinion. Doesn't mean I am right and they are wrong...it is just different opinions. The points you bring up do not change my opinion however.

Respectfully -

Subject: Crowley Case - response from Dan

Hi Kenneth,

Thanks again for your work on this case. It was helpful.

I have put together a list of 15 points of clarification that I have. Just to make sure we're on the same page.

Also, I have listed 12 bullet points of items that your investigation didn't cover, that I feel are relevant to this case. I would like to get your thoughts on these.

Please review and let me know if you want to call me back in person to discuss or reply back to this message with your response. Either way is good with me.

This message has been replied to or forwarded.

Bullet points of notes not addressed in the Investigative Report:

- *Blunt force trauma to the piece of David's skull – 13 indentations found (appear to be from a hex shaped tool). **I did not see this documented in the police reports. I may have missed this.**
- *The end corner of living room recliner had massive blood stain easily seen in the photos. But there was no body near it. **I did notice this.**
- *Page 3 of the investigative report states "I saw the crime scene video" – what does this mean? **Just the video of the pictures like this <https://www.youtube.com/watch?v=fSmJ-xOCLKU>**
- *Mother dies under suspicious circumstances seven months later. **I did not see this in the police report or know what mother? I am not sure what you are referring to here?**
- *Facebook posts deleted on David's PERSONAL page. (Note: laptop was in police custody) ...did someone hack his account? Did investigators pursue this? **I did not see this in the police reports**
- *Jaw bone lying there. Not normal but appears to have been cut straight...by a saw? **I don't see it being cut straight or at all.**
- *Danny August Mason and David Crowley exchange of emails during October, November, December 2014. Deadline of December 16th made by David. **I did see email exchanges.**
- *\$50,000 cash withdrawal from a Minneapolis bank branch on October 17, 2014 from Dan Crowley Sr's bank account while he was *out of the country* on Business. Who made the withdrawal and why? (\$50,000 amount would be in line with an amount required to pay someone to kill three people.) **I did not see that in the police report.**
- *Medical examiner arrived hours late to the scene....and the log records indicate she stayed for 45 minutes. This would be odd for a triple homicide. She was young and transferred to a new job out of state seven months later the very same week Kate Crowley's body was discovered. **I do not find this odd.**
- *Danny August Mason created new Minnesota based company called Gray State Universe, LLC in May 2015. Why? **I do not have answer for this.**
- *Danny August Mason hired an attorney to get a trademark for Gray State, LLC in May 2015. Why? **I do not have answer for this.**
- *Were Komel, and Rani killed because they were the remaining "heirs" to the estate? Were all three "required" to be murdered to ensure the valuable (valued at \$30 million) "script" fell into the hands of Dan Crowley Sr. and Dan Crowley Jr.? **I do not know why they were killed.**

You have to remember you hired me as a consultant not a private investigator. I looked over the materials supplied and based off that I gave my opinion as a consultant. I was not hired to track down leads or interview people, therefor some of the questions you are asking I do not have the answers to.

Kenneth,

I'm not interested in a debate, I'm also not looking to persuade you.

I'm not interested in a debate, I'm also not looking to persuade you.

I have put together a list of 15 points of **clarification** that I have. Just to make sure we're on the same page. **(These relate to items in your conclusion that answered questions that were not asked correctly, or not interpreted correctly, these are merely misunderstandings.)**

Also, I have listed 12 bullet points of items that your investigation didn't cover, that I feel are relevant to this case. I would like to get your thoughts on these. **(These 12 bullet points were not in your conclusion). I just want to know if these were missed by mistake, or if they were not investigated.)**

How you like to handle the response to these items.

Once we get past these points we can move forward to the next step in this case.

Dan

1-Who would you recommend I hire as a private investigator to overturn EVERY stone in this case? **I do not know many private investigators but I am sure there are some out there who would investigate this for you.**

2-What is your fee to hire you to overturn EVERY stone in this case? **I am not taking any more cases currently.**

What I was expecting for your services, was for you to read/understand all of the "official" reports and statements, and then combine that to the four years of research my team and I have done to come to a complete all-encompassing conclusion as to what happened and why? (all without travel to actually come here). **I believe I have done that in my opinion.**

We have detectives from Apple Valley PD that didn't even vet the statements made by family members about phone calls/texts.....and after simply looking them up from the ATT phone records they don't jive. We know the detectives didn't do their work, but the question is why and how exactly were they compromised? I was pretty sure you were going to uncover their sloppy work, this is part of the reason, I hired you. **I do not believe they did sloppy work....again this is my opinion.**

The key players in the "orbit" of David Crowley and some within his very own immediate family are very strong suspects here. **Again, this is your opinion along with a lot of others...just not mine.**

David's own mother suspected something wasn't right, and she wound up dead seven months later under very strange circumstances. **I understand but it doesn't change any of the facts from the Crowley crime scene.**

The hex-tool that caused the indentations on David's skull was examined by forensics experts who came to the conclusion David was beaten with a tool of some sort. I sent you this analysis in the form of a separate email. **What forensic expert? Did they examine the actual skull?**

I did see these thanks for resending. I do not or cannot say those are indentations. Of course I am not a medical examiner and claim no such expertise in that area.

I did not see that addressed in the autopsy report either.

Kenneth,

I am attaching photographs I have run through various filters of the skull bone located on the living floor. Please take a look at the areas I've circled.

Appears to be indentations on the skull resulting from Blunt Force Trauma.

This skull bone is David's per the police reports.

I'm assumed that I sent you these several months ago, but just wanted to be sure you received this.

Dan

I did not just regurgitate what law enforcement said! I agreed with their findings and thought they did a good job in their investigation.

I was hired to give my opinion after reading everything...and that's what I did.

If you don't like my opinions then there is nothing I can do about that...they are my opinions.

I respect your opinions and am sorry you are unhappy with the results I provided.

Respectfully-

On Jul 23, 2019, at 8:07 AM, Dan Hennen <dmhennen@comcast.net> wrote:

No report, just another set of eyes looking at this case.

Keep in mind we've been at this for four years, and have 2,700 members in our group. Many, like myself, never knew this family and have no dog in this fight.

These members have had other experts in their field look at the evidence.

In late 2016, it became known that the Crowley family was killed. Now, with all the evidence gathered, we wanted to get everything (the official reports and the new evidence) in front of a Private Investigator, so this person could compile all of the information and come to their own conclusion.

We hired you to do that. Your conclusion seems to be a summary of what law enforcement already told us. Your information was a regurgitation of what we already knew. Didn't your antennae get raised during this exercise? If you watch the documentary called "The Gray State" by Erik Nelson, one can easily surmise this is a propaganda piece. The question is why was a Hollywood Producer brought into this case to produce a propaganda piece?

Why was Alec Wilkinson from the New Yorker Magazine brought into the mix to write a "companion piece" that was published right before the Documentary was shown at the Tribeca Film Festival?

Remember, there are no coincidences.

We just want the truth, that's all.

Dan
